EDUCATION

BS Software Engineering

International Islamic University

08/2022 - Present

CGPA: 3.45

Intermediate in Pre-Medical

Punjab Group of Colleges

08/2020 - 06/2022

GPA: 4.00

PERSONAL PROJECTS

PokeApp [🔗](#)

- A web-application built using "PokeAPI" for API calls and **ReactJS** for UI.

MERN-Boosktore [🔗](#)

- A project in MERN technology stack that creates, reads, updates and deletes books stored in **MongoDB**-built database. Implemented MongoDB Atlas for backend and frontend in **React**. Also used 'react-router' to handle routing.

Firechat

- A chat app built using ReactJS and **Firebase SDK**'s realtime database.

Recipe API [🔗](#)

- Created an Open Source project for contributions about recipes in **JSON** format.

WORK EXPERIENCE

SDE Internee

Prodigy InfoTech

06/2024 - 07/2024

Achievements/Tasks

- Created an interactive and engaging number guessing game using **JavaScript**, enhancing user experience through intuitive design and responsive feedback.
- Designed and implemented a **weather converter** application that allows users to easily convert temperature units.
- Developed a robust **web scraper** to collect data from a targeted e-commerce website, providing insights and automating data retrieval processes to support business decisions.

SKILLS

Communication
